Mar 2015 - Jun 2018

Writer, Editor, & Podcast Co-Host

Kioske da Maçã was a Portuguese blog that covered technology news, mainly about Apple and its hardware and software. **Wrote** apps and devices reviews, and covered the news, rumors, and tidbits about the company and technology in general. **Co-host of the blog's podcast**, "Podcast do Kioske".

PROJECTS

Mar 2019 - Nov 2020

Master's Thesis

Designing, conceiving, and deploying the MyRadio app, aiming to produce a new experience for music lovers by combining the best features of music streaming services and traditional terrestrial radio. Building the platform from start to finish, using the most important **user research, user design, and user experience** techniques to achieve the best usability possible. Deploying the platform using **React.js, Node.js, and MongoDB**.

Sep 2013 - Dec 2015

Savy is a startup company that I co-founded, responsible for the **creation of devices** that help users to achieve home savings easily, as well as reducing the human footprint in the environment. I was CTO of Savy, deploying its website using **Bootstrap, JavaScript, and SASS**, as well as helping on the creation of the Savy Water device, using **Arduino** and **Visual Basic**. Savy was awarded the runners-up prize at the "A Empresa" competition.

Sep 2014 - Jun 2015

"S.H.A.R.E.S." (Solar - Hydro - Aeolic: Renewable Energy & Sustainability) was an Erasmus+ project funded by the European Union. Its goal was to **raise awareness** of the need for energy conservation and promote the advantages of using renewable energy sources. Within the ambit of this project, I have visited Azuqueca de Henares (**Spain**), Düsseldorf (**Germany**), Kortrijk (**Belgium**), Constanța (**Romania**), and Kells (**Ireland**), and **cooperated** with students from 14 European countries.
